

Case Study

# Delta Kiosk

Ron Cianfaglione  
Lead Interaction Designer

## Existing kiosk:

Reservation Search

Check-In

Itinerary Changes

Employee Needs

Baggage Check

## Challenge

**Prove Delta's New Brand** – move beyond a look and feel and to a promise of innovation, improved ease of use, and respect for the traveler

**Improve consistency with delta.com**

**Support global expansion**

## Requirements:

**Increase non-agent check-in**

**Increase Kiosk approachability**

**Increase the completion rate** of each of the Kiosk functions

**Raise Kiosk satisfaction** (across expanded language scope)

# Customer Insight

Behavior observations and customer interviews led to persona development

**NON-USER**

**ANGELA**

“No, I’ve never tried to use one. I’m not familiar with it and I’d rather deal with a person.”

**NOVICE**

**NANDO**

I came in the door with my bags—looked around—saw the “self check-in” signs and the long lines at the agent, and walked over to it. I never used it before and I did it myself.”

**BASIC**

**BETTE**

“I didn’t know you could check bags at the kiosks. Oh, I’ll use it when I’m on my own without my baby and just have a carry-on. But not today.”

**POWER**

**PAUL**

“I use online for my home airport and kiosks at guest airports. I use online as much as possible, and kiosk after that.”

# Interaction Design

## High Level Flow

Provided visual high level view of check-in process

**Focus on key functions** Provided targeted direction to targeted key functions.

Validate Identification

Retrieve Itinerary

Change Itinerary

Check-in

Welcome

### Common Vocabulary

Allowed team to understand problem with shared terms

### Guiding principals

Keep it simple, 80/20 rule

Eliminate, shorten, simplify

## Basic Flow

Detailed level basic flow

Confirmed business rules

Provided detailed information to propose changes

### Detailed flows:

1. Start & Identification Validation
2. Retrieve Itinerary (Primary Methods)
3. Manage Itinerary and Check In
4. Change Seats
5. Add SkyMiles
6. Special Services
7. Change Flights
8. Upgrade
9. International Travel
10. Pass (Employee) Travel
11. Swipe/Scan Exceptions
12. Retrieve Itinerary (Secondary Methods)
13. Amenity
14. Credit Card Payment

## Interaction Design: the wall

- Provided macro/micro insight into work in progress
- **Focus on 'Happy Path'**
- **Key tool to define templates**
- **Near food : )**
